Yes, Sister, I buy only of Park, his seeds
always grow and yield the finest flowers.

THIS IS WHAT WE CALL "A FAIR DEAL"

We want you to be completely satisfied—Pleased with every packet of seeds, every bulb, every plant you order from us. Please tell us if an error is made (This does sometimes happen, for "To err is human") or if for any reason you are not pleased with the seeds or bulbs or plants we send you. We are never satisfied until you are and shall be glad to remedy whatever may not be entirely as it should be.

WE GUARANTEE the safe delivery of all seeds, bulbs, and plants.

WE GUARANTEE our seeds, bulbs and plants, to the full extent of the purchase price, to be true to name and sure to grow under favorable conditions. We will always do more than fair dealing demands to give you satisfaction. Because weather conditions and other things over which we have no control sometimes cause crop failure, we can not be responsible in any way for the crop, and in no case for more than the purchase price.

FREE DELIVERY: We pay all transportation charges on all seeds and bulbs. Accessory items are postpaid except those described as not prepaid.

CUSTOMER pays postage on plants after arrival. Note the amount of postage used and remit in envelope provided.

GROWING FLOWERS IS A FRIENDLY OCCUPATION—Share your catalog with your friends.

IF YOU ARE IN A HURRY

We normally mail seeds the day your order arrives, however, parcel post has not been quite as rapid as usual during the past few years, so if you wish your seeds in a hurry and include a few extra pennies for postage, we'll rush them back to you by First Class or Air Mail.

FIRST CLASS: Add 6c for each \$1.00 worth of Flower Seeds.

AIR MAIL: Add 12c for each \$1.00 worth of Flower Seeds. If postage cost is less than amount you send, we'll enclose the extra postage with your seed **THIS OFFER APPLIES TO FLOWER SEED ONLY.**

GOD'S LOVE, AND BEAUTY

"My Father in Heaven, help me never to forget Thy Love to me. It comes with the light of the morning, and it remains with the light of the stars of the night. It looks up to me in the beauty of the flower. It shines upon me in the smile of a friend. All beautiful things are the gifts of Thy love. Help me to be thankful, and to link every beautiful thing with Thee.—Amen."

SO DEPENDABLE

Chinook, Mont. Feb. 16, 1950
Dear Sirs: - - Gardening is a real form of relaxation for me and makes life much more interesting and worthwhile. - - You are the only seed house that has such a wonderful variety and at such low prices that one can indulge in a lot of different seeds. - - Your seeds are true to name, of the newest varieties, and so dependable. Yours truly, Mrs. Earl Summers.

WM. J. PARK, V. Pres.
Grows the plants for you.

DEAR PATRON FRIENDS

Peace! Between nations, it is the result of a majority of the individuals of each nation having peace within themselves. Some of Webster's definitions of Peace are: A state of tranquility or quiet; harmony in personal relations; freedom from fears, agitating passions, and moral conflict. If we as individuals have this kind of peace, we can forget about world conflicts.

I believe that Gardening fulfills a fundamental need in the lives of men. In our highly industrialized land, we have gotten so far from nature, and in many cases from God, that we have lost track of many of the good things life offers us. We are so hurried in our daily jobs, so worried about atomic bombs, that our lives are not peaceful as defined above. Gardening will help us find that peace.

Which of us can get close to mother earth—work the soil, plant seeds and watch them break through the soil, and reward our efforts with breathtaking beauty found only in God's handiwork—and not experience freedom from every-day cares. There, too, we can think more clearly, evaluate our problems in better perspective. God's wonders are so clearly revealed in the quiet of the garden that we wonder not the poet said "You are nearer God's heart in the garden than any place else on earth."

Take your cares to the garden and come away refreshed, at peace with God and the world, knowing that you are contributing your share toward peace in the world as well as enriching your own life.

"The Peace of the Garden" expresses itself in terms of friendship too, and these repeated greetings, and the many pleasant letters that come to us every day have brought us into the happy relationship of friends. In behalf of all of us at The Geo. W. Park Seed Co., I wish to thank each and every one of you for your kind expressions as well as your continued patronage.

During the course of the past 83 years, this business, founded in 1868 by Geo. W. Park, has served members of many families during each of three generations. The Geo. W. Park Seed Company has grown along with our great United States, so that now with 83 years of experience to draw on, and an organization built up over a long period of time, we are prepared to offer you the finest seeds and bulbs grown in the world today, and the best of service.

It is a special pleasure, this year, to hand you our Flower Book, revised and improved in various ways to make it more attractive and useful to you in the selection of your seeds and the care of your plants.

I wish you all success and pleasure in your gardening.

Floricordially yours,

January 1, 1951.

TO INSURE YOUR SUCCESS

1—The Seeds We Sell Are All of the New Crop.

Grown by specialists in many parts of the world, **TESTED FOR GERMINATION AND PURITY.** Sure to grow and give you the finest results.

It takes no more time and effort to grow seeds from the best strains, so start with the best and save disappointment at flowering time by ordering direct from Park.

2—To Prevent Disease and "Damping Off".

Nearly all soils contain harmful fungi, which if not controlled, attack the seed and cause what is known as "Damping Off" (This usually happens just before or just after the baby plants emerge from the ground). Also there are present on the surface of most seeds certain pathogenic fungi which, if not destroyed, cause the seed to decay. (This is especially true in cold damp weather.) These often account for poor, uneven stands and weak, non-vigorous young plants. Fortunately, in recent years agricultural scientists have shown that certain chemicals will destroy the disease organisms and protect the seed from attack by organisms present in the soil.

AS A REGULAR PARK SERVICE

WE TREAT ALL VARIETIES OF 82 Species of FLOWER SEEDS (This includes the greater part of those we offer) and **ALL VARIETIES OF VEGETABLE SEEDS** with the most efficient Seed Treatments as recommended by Experiment Stations. Better germination, stronger plants, higher yields will thus be yours with Park's Treated Seeds.

488—New Carnation ENGLISH GIANTS

The best type of Carnation we have seen for the gardener who appreciates superior size and quality and is willing to give his planting a little extra attention to obtain the best. If well grown and the secondary buds are removed from under the main bloom, the gardener will obtain blooms comparable to the finest greenhouse grown Carnations. The flowers will attain 4 in. diameter, being fully double and borne on long stems. The colors embrace every Carnation color. We recommend this fine Carnation strain without reservation. 40 seeds. 25c.

VERBENA BUSH TYPE

(Giant Flowered) 2044—Starlight

Bush type Verbena was introduced in 1948 for the first time in the variety Salmon Queen. This proved very popular because of the new habit of growth: The broad flat-topped, bushy plants are 8-10 in. high and 12-15 in. across. The flower heads practically touch each other covering the plant completely with no bald or open spaces.

2044—Starlight. (Introduced in 1949) Bright mid-blue with creamy white eye. Pkt. 25c.

2045—Salmon Queen. Salmon pink. Pkt. 25c.

2042—Roselight. Latest addition to the Bushtype family. Bright rose-pink with white eye. Profuse blooming and uniform of habit. Pkt. 25c.

2046—Brightness. Cerise scarlet, white eye. Quite compact and covers well, similar, but not classed as bush type. Pkt. 25c.

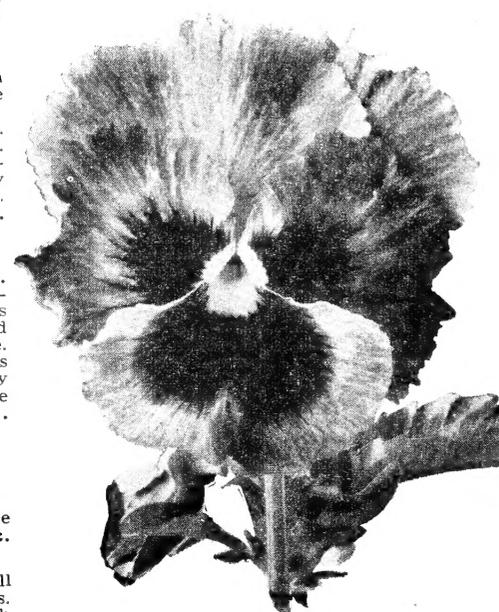

2043—Bush Type Mixed. From the trial ground of the originator of above varieties by special arrangement. Includes many colors. 25c.

Dwarf Bush Ipomoea Blue Mound

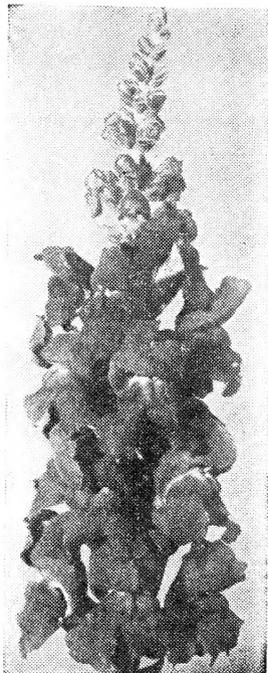

All America Winner-Marigold Glitters

1497—PANSY Raspberry Rose
Best liked separate color in Swiss Giants. A lovely tint of pink best described as raspberry rose. Pkt. 25c; 3 Pkts. 65c.

BEARDED IRIS

A REAL BARGAIN: A friend of ours, who is one of the best Iris growers in the country, has a field of Iris containing 55,755 plants. These plants are all of good varieties, many of them being very expensive novelties. These plants would normally range in price from \$1.00 to \$10.00 per plant. The labels on these plants were misplaced or destroyed by thoughtlessness, really criminal pranksters. Therefore the plants cannot be sold under their proper names, and we are therefore able to make this bargain offer on these very fine Iris.

MIXED IRIS: 25c each; 3 for 60c; 12 for \$1.95; 100 for \$15.00.

ORDER EARLY. This offer is good as long as they last.

Lily White Queen blooms in 15 months from seed

1495A—ROGLI'S GENUINE ORIGINAL SWISS GIANT PANSIES MIXED.

Do not confuse this with the Swiss strain offered below which is several generations removed from the original. Seeds we offer here are direct from Mr. Roggli, the Swiss Originator of this world renowned strain. Since it was originally offered it has become the standard others attempt to attain, but the Roggli's have continued to improve it and it is still the finest to be had in the world today. Huge flowers are produced on long erect stems. The color range is superb. There is a tendency toward the handsome deeper tones of red and blue, but it is well balanced with lighter yellows, whites, light blues. 60 seeds 25c; 300 seeds \$1.00; 1/32 oz. (about 800 seeds) \$2.00; 1/16 oz. \$3.75; 1/8 oz. \$6.75; 1/4 oz. \$12.00.

GIANT PANSIES

A PARK SPECIALTY

Pansies are well and favorably known, so that a description of their exquisite beauty, and usefulness in the garden is unnecessary. They are simply indispensable, and if we were to name a half dozen of our best seedling flowers, the Pansy would be one of them. There is, however, much difference in the strains, some being greatly superior in vigor and free-blooming quality to other plants as well as the great size, form, variety, and richness of colors and variations. We are pleased to say that the seeds we offer are from Pansy specialists, all of the new crop, and cannot be surpassed in quality, regardless of claim or prize.

The Largest and Finest of All Pansies

We offer ORIGINATOR'S Seeds of the FOUR FINEST PANSY STRAINS in the World.

SLUIS BROTHERS' SUPER GIANTS SWISS PANSIES

The flowers are not only Giants but Super-giants their size being enormous, and what is more, they include a range of colors and variegations that have never been approached in giant Pansies. Messrs. Sluis in Holland have grown the seeds for us from special re-selected plants and flowers. Our seeds can, therefore, be absolutely relied upon to yield the finest—the very finest—Pansies. Pkt. (50 seed) 10c; Giant Pkt. (200 seed) 25c; 1/32 oz. 75c; 1/16 oz. \$1.35; 1/8 oz. \$2.00; 1/4 oz. \$3.50; 1/2 oz. \$6.00; 1 oz. \$11.00. Order No. 1495.

SWISS GIANTS

IMPROVED SWISS GIANTS.

Most popular of the Giant Pansies, this group is enthusiastically admired for its exquisite colors and huge size. Color tendency is toward the handsome deeper tones, well balanced by yellows, whites and light blues. 1473—Superb Mixture. Pkt. 10c; Giant Pkt. 25c; 1/32 oz. 50c; 1/16 oz. 95c; 1/4 oz. \$3.00.

SWISS GIANT COLORS

Pkt. 10c; Giant Pkt. 25c.

- 1465—Alpenglow. Cardinal shades.
- 1466—Bernina. Dark Violet Blue.
- 1466A—Black King.
- 1478—Claret. Wine red.
- 1467—Coronation Gold. Canary yellow, lower petals flushed golden orange, slightly ruffled.
- 1468—Fire Beacon. Brick red.
- 1469—Lake of Thun. Thunder Sea blue.
- 1471—White. Pure white.
- 1472—Yellow Master. Pure yellow.

1496—Swiss Giant Orange.

Color is vivid orange, the upper petals with a halo of golden yellow, the lower petal is deep orange. Flowers are perfectly round with overlapping petals of good substance. Introduced and grown for us by Vis Bros. in Holland. Pkt. 25c; 3 pkts. 65c.

1497—Giant Raspberry Rose.

An entirely new color in the Swiss Giant Strain. A lovely tint of pink, best described as Raspberry Rose. It has a suggestion of a lighter tone on the edges and a velvety blotch in a deeper tone. Outstanding, new. Pkt. 25c; 3 pkts. 65c.

1482—Engelman's Giants.

Seeds we offer are direct from Mr. Engelman. This strain is particularly noted for its heavy texture and very strong stems which enable it to hold up better during hot weather than any other strain. Flowers are of giant proportions and the color range is complete tending toward the brighter colors, many being penciled or veined giving a striking and different effect. 30 seeds 10c; 100 seeds 25c; 1/32 oz. \$1.00; 1/16 oz. \$1.75.

1484—Steele's Jumbo Mixed.

Field plants producing flowers up to 5 inches in diameter. Many new and unique colors—pastel pinks, apricots, yellows, blues, brass tones, copper bronze, purple, red in various combinations and self colors. Fully two weeks earlier than other strains. Pkt. 10c; Gt. Pkt. 25c; 1/64 oz. 75c.

RUFFLED OR FRILLED

1487—The Oregon Giants.

Originated and grown for us by Mrs. Merton G. Ellis in Oregon, this is by far the finest American strain of Giant Ruffled Pansies. The color range is superb, well balanced and complete. The flowers are very heavy textured 3½-4½ in. in diam. and heavily ruffled. We highly recommend this as the best ruffled Pansy in existence. 100 seeds 25c; 500 seeds \$1.00; 1/16 oz. \$1.75.

1489—MASTERPIECE, MIXED.

Crinkled and ruffled blooms of such great substance as to appear double. Colors mostly in richer deeper tones. Pkt. 10c; Giant Pkt. 25c.

1488—Park's Pedigreed Exhibition Giant Art Shades

Developed for all the best qualities of early, huge, long stemmed splendid textured flowers with particular selection of art and pastel shades, these plants produce a unique and strikingly beautiful effect. Pkt. 10c; Giant Pkt. 25c; 1/32 oz. 75c.

Roggli's Swiss Giants for color and size

Engelman's Giants for heat resistance

Ellis' Oregon Giants finest ruffled flowers

Steele's Jumbo Mixed early bloom

1479—A Blended Mixture of 4 strains above. Pkt. 25c; 400 seeds \$1.00.

SWEET SCENTED PANSIES

1499—READ'S NEW CENTURY SCENTED. Introducing an entirely new strain from England, in which has been developed an exquisite scent and color range which baffles description. Includes many new colors. Blooms 4½ in. in diam. have been recorded, while 3½ in. is average. Petals are stiff and fleshy enabling the flowers to keep well even when buffeted by wind and rain. Originator's seeds. Pkt. 15 seeds 25c; 40 seeds 50c; 100 seeds \$1.00.

1498—Butterfly Hybrids.

Something really different in Pansies. A strain mainly of pastel character in shades of pink, rose, apricot, buff, orchid, pale gold, coral and flesh. The form is unbelievably ruffled, fluted and marked with sun rays and blotches of butterfly sheen metallic jewel tones. 40 seeds 25c; 200 seeds \$1.00; 1/32 oz. \$2.95.

1490A—Fluffy Ruffles. (New)

Attractively ruffled and frilled, color range is varied and appealing. Pkt. 25c; 300 seeds \$1.00.

1490—CURLÉ DOUBLE FRINGED MIXED. Pkt. 25c.

1492A—"FELIX" - "The Cat's Whiskers."

Well ruffled flowers of good size. Colors are rich and unusual—including purple, apricot and wine shades together with pastel bronzes and smoky tones difficult to describe. Each flower is marked with dark "whiskers" which characterize this strain, and over-all effect is indeed striking. Pkt. 40 seeds, 25c; 200 seeds \$1.00; 1/32 oz. \$2.95.

1486—LARGEST PANSIES GROWN. Maple Leaf Giants. Maple-like leaves. Pkt. 25c.

1491A—WESTLAND GIANTS. One of largest with beautiful color variation. Pkt. 25c.

GIANT FLOWERED—SPECIAL COLORS

1475—Azure Giants. Deep dazzling blue

1477A—Moon Moth. Immense pure white. 25c.

1474—Red Giants. All cardinal colors.

1474A—Jumbo Pay Dirt. Largest golden yellow ever produced. Resists summer heat. Pkt. 25c.

1463—GIANT STRIPED VARIETIES. Striking.

GIANT WINTER BLOOMING PANSIES

These are unusually hardy and bloom very early in spring; indeed where winters are mild they bloom thruout the cold months, with a little protection, they bloom during the northern winters.

1483—Ice Pansy. (Hyemalis). Winter Flowering Early Giant. A complete mixture of colors.

1481—DON'S WINTER FLOWERING. Pkt. 25c.

1481A—CLIMBING PANSY. Often several ft. in height. Extra long cutting stems. Wide color range. Pkt. 25c. Limited supply.

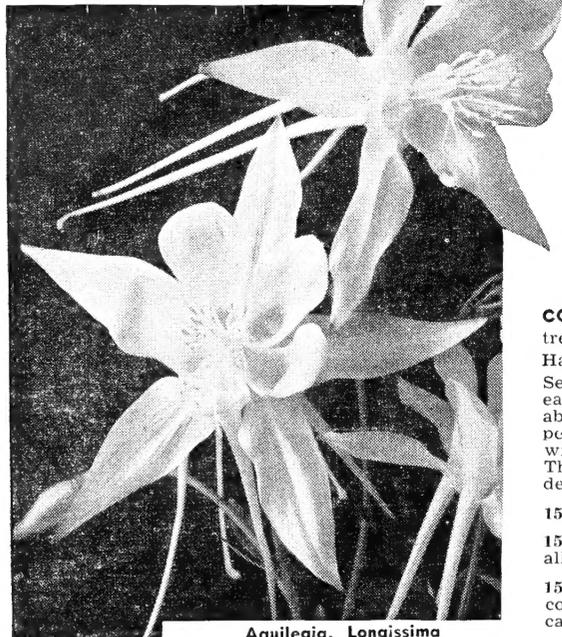

AQUILEGIA

or COLUMBINE Queen of Flowers

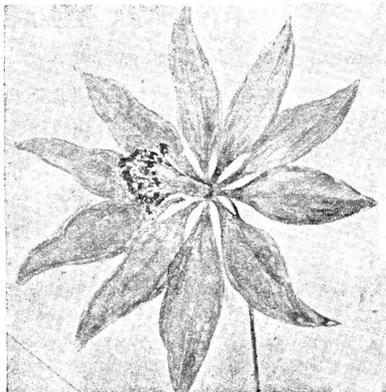

HARDY PERENNIAL

**Yours for the choosing.
Grace, color,
sheer beauty of form.**

Pictured in color on back cover.

Aquilegia, Longissima

161—Aquilegia Clematiflora. Pkt. 10c.

Red, yellow, pink, blue, white; long spurred and spurless, which do you want?
Hp. Choice cut flowers, borne on strong wiry stems in profusion during spring and early summer. The foliage is airy and graceful, delightful in the border. One of the most easily grown perennials, very dependable and long lived. One year old plants may be forced for winter bloom in the greenhouse. Seed sown inside in early spring will usually bloom in fall the first season. Likes partial shade.

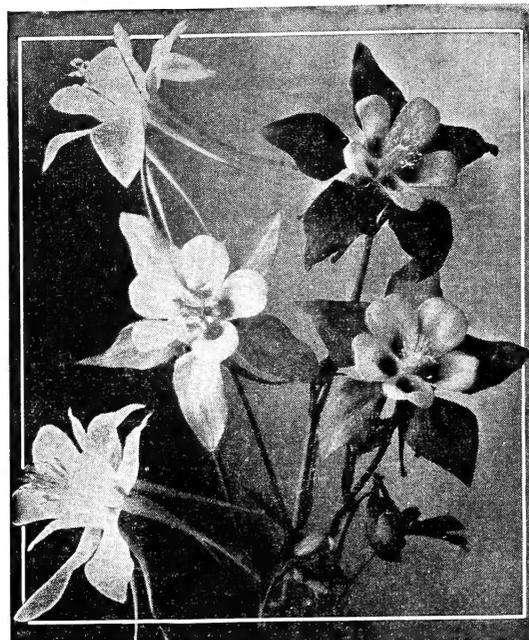

COLUMBINE CULTURE: This subject is treated fully on pg. 12 of "The Gardener's Handbook" sent free with your order.

Seed may be sown in frames in spring, early summer or fall. Germination takes about 4 weeks, but the seed is very dependable and almost every one planted will come up, if the bed is kept moist. The plants like a cool, moist partly shaded location.

- 156—Alpina, 18 in. Dwarf, deep blue.
- 157—Blue Shades. Long spurred variety of all pretty blue tones.
- 158—California Hybrida. 3 ft. Rare tricolor. Petals orange, long carmine spurs, canary yellow corolla. Attractive, striking.
- 158A—California Hybrida Double. Pkt. 25c.

- 160—Chrysantha, 2 ft. Attractive rich yellow.
- 160A—Double Golden Chrysantha fl. pl. 3 ft. Large fully double golden yellow. Pkt. 25c.
- 161—Clematiflora (New Spurless Columbine). Medium height, compact, free flowering; large open Clematis-shaped flowers in delicate colors.
- 162—Coerulea, Rocky Mountain Columbine, 2 ft. Sky blue, white corolla. One of our best.
- 162A—Coerulea Double. Pkt. 25c.
- 163—Crimson Star, 2 ft. Petals striking crimson with white centers and blooms 3 in. and more across. Brilliant. Blooms May-June. Hardy.
- 164—Dobbie's Imperial Hybrids, 3 ft. One of the finest improved strains. Long spurs, large flowers in an excellent range of colors and combinations.
- 165—Longissima. Noted for unusually long slender spurs, 4-5 in. long, giving the pale yellow flrs. an exceptionally graceful effect. From Northern Mexico, likes hot dry places. June flr.

166—Long-Spurred Hybrids. Novel colors.

Aquilegia—Mrs. Scott Elliott's Hybrids

PLANTS: See Page 25.

- 168—Nana Alba. A dwarf large flowering plant bearing milk white flowers of rare beauty.

- 170—Pink Shades. Delicate pink with long spurs.
- 171—Rainbow Mixture of Colorado Varieties. A fine blend of many colors.
- 156A—Red Riding Hood. 2 ft. Old rose calyx with pure white double corolla. Lovely.
- 172—Rose Queen. 2 ft. Soft rose, white corolla.
- 178—Skinneri. 3 ft. Flowers 1 1/2 in. across are yellow with showy green sepals, and 2 inch red spurs.
- 173—Snow Queen or Silver Queen. 2 ft. Beautiful silver white tinged cream at throat. Fragrant flowers in May and June. Best white.
- 174—Double Flowered Mixture. 2 ft. Comes in many forms and colors. Surprising and delightful.
- 176—PARK'S SPECIAL Complete Mixture, all varieties.

SELECTING AND SOWING

If you wish seeds to sow in a garden bed or to present to children, or if you have had but little experience in raising flowers from seeds, select such flowers as Alyssum, Aster, Balsams, Cosmos, Calendula, Candytuft, Oriental Pinks, Gailardia, Helianthus, Marigold, Mignonette, Bedding Petunia, Pansy, Phlox, Ricinus, Scabiosa, Nasturtium, Valerian, Verbena and Zinnia; for vines get Coboea, Cypress, Dolichos, Gourds, Morning Glory, Thunbergia. Even in sowing these it is well to prepare the bed carefully in a sunny exposure; place a low board frame around it and after sowing, water and cover with a newspaper until plants appear. If you sow seeds in the open with full exposure to rain, wind and sun, you should not complain if few of the seeds become plants.

TO INSURE SUCCESS. Many failures with seeds are due to lack of knowledge of the time required by the seeds to germinate. Study the table on pages 45 and 46 to avoid failures from this cause. Follow instructions in the "Gardener's Handbook."

OUR CUSTOMERS SPEAK

Every year we receive hundreds of letters telling us of the joy gardening brings, and praising our seeds. We wish to thank each of you for this interest shown, and assure you that we shall do our best to continue to merit your praise.

Park Seed Co., Spring 1950, Austin, Tex. I should like to express my appreciation for the fine quality of both your seeds and your service, with which I have always been much pleased.
Mrs. Gordon H. Mills.

Dear Sirs: June 5, 1950, Circleville, Ohio. All bulbs purchased from you have come up and I'm sure about every seed which I planted has germinated; needless to say, I'm very well satisfied.
Yours truly, Miriam E. Weaver.

Sirs: Jan. 2, 1950, Lincoln, Nebr. At State Fair Sept 9, I took 21 prizes and my neighbors as many - we ordered to-gether and divided the seeds.
Mrs. Chas. Reed.

Gentlemen: - I am looking forward to a lovely garden this summer and as usual it is all your fault.
J. W. W. Yemassee, S. C.

Dear Friends: Some years ago I seemed to discover that the Park's People love people as well as flowers. That is as it should be. C. H.

VIOLA CORNUTA—VIOLETS OR TUFTED PANSIES

Companion plants to Pansies, though flowers are not as large. Admirably adapted for rockery, beds, and borders as the colors are bright and attractive, plants are sturdy and free blooming, thriving in moist partial shade with no enemies. Pkt. 10c; Giant Pkt. 25c.

- 2073—Arkwright Ruby. Ruby crimson shading to terra cotta. Flowers larger than ordinary.
- 2074—Avalanche. Large, pure white. Pkt. 25c.

2103—Viola Douglasii (Chrysantha). A delightful species. 5 in. Flowers are orange-yellow veined with purple. The leaves are deeply lobed giving a fern-like appearance. Pkt. 25c.

2094—Little Johnny Jump Up. hp. 4 in. "The Old Fashioned Violet." Diminutive Pansy charm. Flowers show tones of lemon, lavender, rosy mauve, lilac, gold, violet. Floriferous, bright.

Viola Cornuta—Park's Pride

2081—PARK'S PRIDE Improved Scotch Bedding. Viola Cornuta. A grand New bedding hybrid mixture of all the finest, brightest, gayest colors in the largest size flowers and most robust plants. A supreme mixture.

PERFUMED VIOLA ODORATA

- 2095—The Czar. A very large flowered, bright blue, delightfully scented.
- 2096—Sweet Violet or Tufted Violet, hp. 4 in. (Viola Odorata semperflorens). Blue, sweet.

BUTTERFLY VIOLETS (Papilio)

Hp. Blooming the first season. Hardy and free blooming. The flowers are larger than other Cornuta varieties, and usually have purple centers.

2101—Mixed.

GIANT DELPHINIUMS

LATEST AND BEST

These are among the finest perennials. All are beautiful, hardy, and live and bloom freely for years. Prevailing colors are blue and violet with intermediate shades. Plant in good moist friable loam, with old manure mulching twice a year. Under the best conditions, the better Hybrid Delphiniums will attain 6 or 7 feet in height, with large flowers borne closely upon long spikes. Cropped to 6 inches after blooming in spring new stalks develop and bloom in fall.

GERMINATION NOTES: To improve germination, place seed between moist blotters and leave directly under freezing compartment in refrigerator for a week prior to planting. Then see directions in "Gardener's Handbook."

Victorious All Double

Petunia, All Double America

Thrill to the Lively Beauty of Fine **PETUNIAS**

The All Purpose Flower: For lovely beds, attractive borders, cutting, charming porch boxes, winter pot plants. **A Type and Color to please every taste:** All Doubles, Giant ruffled singles, Plain edged giants, Small prolific singles. Pink, yellow, red, rose, purple, lavender, blue, white. Dwarf or tall, spreading or compact.

Petunias stand pre-eminent as a hardy, beautiful, all purpose flowering plant. Readily started from seed, they soon come into bloom, becoming a glowing mass of exquisite, showy, and deliciously fragrant flowers, in bloom from early summer until frost. They may be started in fall or early winter indoors to make blooming window plants for late winter and very early spring. *Don't omit these beauties from your list.*

GIANT DOUBLE PETUNIAS Now in Complete Color Range

With the Return of the foreign-grown All Double Victorious Strain, which has not been available since 1943, and with the American-Grown All American All Doubles introduced in the past few years, we are glad to offer again a complete color range in Double Petunias. The seeds are necessarily very expensive due to the fact that they have to be carefully hand pollinated and there is real art and scientific knowledge required to produce seed which will give consistently Double flowers. The seed are smaller and the seedlings weaker than the Single kinds, so require more care in starting.

Soil should be sterilized by pouring water thru it twenty-four hours before planting, and the little seeds planted on the surface of the soil. Then follow directions on pg. 3 and 4 of the "Gardener's Handbook" sent free with your order. The seeds are very tiny, and the 25c packets, contain only a few seeds as noted in the description. We suggest that you obtain the larger packets, but list the 25c packets in keeping with our price policy. **After the All Double Petunias get past the baby plant stage they are quite vigorous and can "take it" even where summers are hot.**

AMERICAN ALL DOUBLES

1566—**America**—All American Silver Medal, Uniform, compact plants about 1 ft. high, with 18 in. spread. Bears Carnation type flowers of medium size 2 in. across of fresh rose-pink. Blooms from June until frost. Pkt. 40 seeds 25c; 100 seeds 50c; 200 seeds \$1.00.

1567—**Colossal Shades of Rose**. Silver medal winner. The largest of the all doubles. Flowers often 5 in. across are 100% double in varying forms, plain edged, frilled, curled and varying in color from light salmon-pink to deep rose. Pkt. (15 seeds) 25c; 100 seeds \$1.00.

1562—**Rose Marie**. Bronze medal. The plants are dwarf and very free blooming. Flowers are a delightful rose-pink shade, 3 in. and more across. Very fine for beds or borders, and good for cutting. Pkt. (15 seeds) 25c; 100 seeds \$1.00.

1561—**Mrs. Dwight D. Eisenhower**. Silver Medal winner. Flowers are soft mid-salmon 2 3/4 in. across. Plants are low and spreading, bushy and of good habit. Height about 16 in., spread about 30 in. Uniform in color and doubleness. Excellent for bedding or borders. Pkt. (10 seeds) 25c; 50 seeds \$1.00; 100 seeds \$2.00.

1563—**Canadian All Double**. A distinctly superior strain, producing 100% double flowers with quite dwarf, compact habit. While the flowers are not quite so full petalled as the Glorious All Doubles, the size of the flowers and the uniform dwarf habit make this an ideal strain for bedding or pot plants. Pkt. (20 seeds) 25c; 100 seeds 90c; 500 seeds \$3.00.

COLLECTION 028—5 Packets—one 25c packet of each American Double Petunia listed above. \$1.00.

ALL DOUBLE PETUNIA

"VICTORIOUS"

DWARF—GIANT FRINGED—LARGE SIZE

Plants dwarf compact, true and uniform. Very fine for borders, beds or pot plants. The flowers are large, 3-5 in. in diameter, and so frilled and fluted and full, that they appear as great fluffy balls. The most fully double of all Petunias.

DOUBLE STRAIN

1568—PARK'S SUPER GIANT DOUBLE AND FRINGED MIXED.

This is a magnificent strain but is only about 50% double. Flowers are similar to the Victorious All Double pictured above. Seeds are less expensive than the All Doubles. Pkt. 10c; Giant Pkt. 25c; 1/128 oz. \$1.50.

NEW DWARF RUFFLED PETUNIA

1598—"GARDEN GIANTS"

The outstanding feature of this new variety is its satisfactory plant growth. The plants uniformly develop into well-rounded mounds 12-15 in. high. They start flowering when extremely small, and continue their gorgeous display all through the summer, holding their size and ruffling even under adverse conditions of heat and dryness. Because of its uniformity and continuous blooming, it is by far the best variety of Giant Ruffled Petunias for borders we have ever seen. Includes a wide variety of bright color combinations. Pkt. 25c; 1/128 oz. 75c; 1/64 oz. \$1.25.

1644—SUPER FLUFFY RUFFLES

This is a well balanced mixture of pink, white, salmon, deep-rose, crimson and light blue. Outstanding in beauty, it is so ruffled and frilled that the flowers appear to be double. A very special strain which is superior to all other ruffled varieties. Try a packet. You will be well pleased. Pkt. 10c; 100 seeds 25c; 500 seeds \$1.00.

Mr. Park:

I have had good results from all the seed I ordered from you. I think every seed of the double Petunia came up. Mrs. C. M., Claremont, N. C.

1598—GARDEN GIANTS. Pkt. 25c.

Most satisfactory Giant Ruffled Petunia for the Home Garden

Petunia Dwarf Compact Bright Eyes

DWARF COMPACT PETUNIAS THE PERFECT BORDER

(Hybrid Nana Compacta) ha, or hhp. 1 ft.

Plants are dwarf and compact, 10-12 in. high and form round, mound-like plants which suits them well to the border. Very free flowering, the plants are covered with bloom from early summer until frost. The flowers are of medium size 1½-2 in. in diameter. This is the best type for borders, edgings for taller plants. They also make shapely pot plants or window box subjects.

PARK'S 10 BEST Border Petunias

These fine varieties constitute three-fourths of our demand for Dwarf Petunias.

- 1621—**Bright Eyes.** (A.A. '46). A gay blanket of rosy pink, white throated flowers cover the dwarf 9 in. plant all season.
- 1620—**Blue Violet.** (New). A good deep violet color. The flower has unusual substance.
- 1623—***Cream Star.** Silver Medal 1940. 2½ in. pointed star-like flowers of soft creamy white.
- 1582—***Cheerful.** 12 in. Compact rounded plants. Flowers, clear pink salmon suffused.
- 1602A—**Firechief.** The reddest Petunia you've ever seen! Dwarf habit, free blooming. The all-time point winner since the All Americas were founded. Pkt. 25c.
- 1624—***First Lady** (New). A.A. '41. Large 2½ inch flowers of pleasing clear light bluish pink.
- 1619—**Glowing Rose.** The intense brilliance of this new Petunia makes it the most startling of all the dwarf bedding varieties. Individual flowers are much larger, and plants are even and do not become unshapely. It commences to bloom about 1 month earlier than other varieties and produces a profusion of intense glowing rose flowers thru-out the season until frost. Pkt. 25c.
- 1628—***Rosy Morn Improved.** Most popular of this group. Brilliant rose, broad white throat.
- 1629—***Silvery Blue. (Heavenly Blue).** Light cambridge sky blue. Delightful, unusual color.
- 1631—***White Perfection.** A.A. 1939. One of the best white petunias in existence. Abundant 2 in. snow white flowers, compact plants.
- 1632—**Balanced Blend of 10 Best Above.**

ADDITIONAL GOOD VARIETIES

- 1622—**Celestial Rose.** Glowing deep rose.
- 1626—**Peach Red.** Unique distinct new color of salmon cerise 2 in. flrs. (A.A.)
- 1627—**Rose of Heaven.** Rose pink.
- 1653—**Velvety Crimson.** New.
- 1581—**Velvet Ball.** Compact round 8 in. plants are smothered in 2½ in. flaming velvet flowers.
- 1652—**Fancy Blotched and Striped Mixed.** An unusual blending of the brightest and most contrasting blotched and striped flowers.
- 1633—**Complete Mixture.** Pkt. 10c; 25c; 1-16 oz. 50c; ½ oz. 85c.

SPECIAL NEW DWARF COMPACT PETUNIAS

The plants are of dwarf compact habit, fine for borders or beds and like the Hybrida nana compactas listed above except for flower shape and size. For unusual borders of exceptional beauty you'll surely want these.

The New Dwarf Compact Giants

Flowers twice as big as 2½-3 in. across.

- 1619A—**Striped Glory.** Boldly striped and blotched with rich carmine and pure white. A strong, yet beautiful contrast. Pkt. 25c.
- 1648A—**Salmon Glory.** Opens dazzling scarlet orange changing to rich salmon orange which has few equals in brilliancy. Pkt. 25c.

The Dwarf Ruffled Giants

Medium sized, well ruffled and waved, deep throated flowers keep the neatly compact erect 10-12 in. plants covered all season.

- 1583—**Martha Washington.** Blush pink, lavender throat. A beautiful color.
- 1645—**Little Giants Mixed.** Provides an unusually attractive array of colors from deep crimson thru rose and pink to white in every imaginable shade and combination of markings.

The Dwarf Fringed Giants

Large flowers are beautifully fringed with just the right amount of ruffling. Plants are dwarf and compact. Free blooming.

- 1601A—**Innocence.** Pure white. Pkt. 25c.
- 1600A—**Rose Charm.** Brilliant rose. Pkt. 25c.
- 1580A—**Carmineita.** Bright scarlet orange. Almost a counterpart to Firechief. Pkt. 25c.
- 1645A—**Complete Blended Mixture** of the above Dwarf Compact Giants, Ruffled, fringed. Pkt. 25c.

Petunia Giant Fringed Theodosia

GIANT FRINGED

(Hybrida Grandiflora Fimbriata 12-16 in. The flowers of well grown plants of this type will average 4-6 in. across and have a charm all their own due to the attractively fringed and frilled blooms. Fine for beds, borders, unexcelled for pots or window boxes.

- 1587—**Dainty Lady.** New Petunia in a distinct color. The semi dwarf compact plants bear delicately fringed golden yellow flowers.
- 1590—**Violacea. (Ocean Blue).** A giant flower.
- 1599—**Scarlet Beauty.** Scarlet rose. A beautiful color and a giant flower.
- 1591—**White Beauty.** A pure white beauty with delightfully frilled and ruffled edges.
- 1591A—**White Mound.** Similar to White Beauty but dwarfier, more prolific, more fringed.
- 1589—**Theodosia. Improved.** Bright rosy pink with blending golden center.
- 1592—**Complete Mixture** of Fringed Single.

GIANT FLOWERED—Plain edged.

(Hybrida grandiflora) ha, hhp. 12-16 in. Flowers are large 3-4 in. across, plain edged and deeply lobed. Stronger growing than the Ruffled and Fringed type and are excellent for beds, borders, pots, or cutting. Vigorous and spreading.

- 1646—**Burgundy.** Rich wine red, white throat.
- 1647—**Elk's Pride.** Largest, darkest, best velvety purple.
- 1648—**Pink Glory.** Extra large deep pink.
- 1649—**Purple Robe.** Deep purple edged silver.
- 1650A—**White Queen.** Extra large wavy, pure white flowers. Best white in this class.
- 1650—**White Cloud.** Not quite as large but more free flowering than White Queen.
- 1651—**Complete Mixture.** Giant Flowered.

LARGEST OF ALL

Wide open 4-6 in. flowers. Brilliant colors for beautiful pot plants, summer beds, borders.

- 1593—**Glamour.** Salmon pink, golden center.
- 1595—**Giants of Calif.** Complete mixture of colors.
- 1581—**Dwarf Giants of California.** Ramona strain. Dark and light shades mixed.
- 1586—**Complete mixture** of Ruffled Giants.

PETUNIA HYBRID BEDDING 1½ Ft.

(Hybrida) ha, or hhp. 1½-2 ft. Stronger growing than the dwarf compact type with larger flowers 2-3 in. across. Habit of growth is more spreading and taller. Produces a mass of flowers from early summer until frost even under trying conditions. Its best use is in beds for mass effect, or in porch boxes.

- 1601—**Blue Bee.** Striking and attractive in richest violet blue shade. A delightful color.
- 1604—**Flaming Velvet.** Reselected A.A. Gold Medal '36. Rich, brilliant velvety blood red flowers.
- 1605—**General Dodds.** Very darkest red of all.
- 1606—**Howard's Star.** Handsome velvety-purple with pure white star in the center.
- 1609—**Radiance.** Silver Medal 1941. For richness and brilliance of color, this beautiful cerise flower with an undertone of salmon shading to gold at the throat is hard to beat.
- 1611—**Topaz Rose.** Fiery velvety rose of a brilliancy seldom seen, with suffusion of gold and topaz rose in the throat. A.A. 1938.
- 1612—**White King.** The best white Hybrida.

Petunia F1 Hybrid Silver Medal

NEW F1 HYBRIDS

More vigorous, more profuse, larger flowers, almost 100% true, earlier and more uniform due to their hybrid nature. The seeds are necessarily more expensive than the common types.

MULTIFLORA PETUNIAS (F1 Hyb.)

The finest border or bedding Petunias ever produced. Flowers larger, more freely produced, completely cover the plants which do not break open. They are uniform and extra early blooming.

- 1560A—**Pink Charm.** 1 ft. Deep glowing rose. New for 1950, don't miss it. Plants of the dwarf compact type with extra large flowers. Fine for borders or beds. 30 seeds 25c; 100 seeds 50c.
- 1560—**Pink Sensation.** 2 ft. (A.A. 1948). Unusually large rose-pink flowers are borne so profusely the tall bushy plants seem completely covered with color. 30 seeds 25c; 100 seeds 50c.
- 1600—**Silver Medal.** 1 ft. (A.A. 1949). The plants are compact and rounded, covered with large flowers of richest, purest salmon-pink yet seen in Petunias. Pkt. 25c; 100 seeds 50c.

DWARF FRINGED F1 HYBRIDS

New and outstanding. Dwarf compact plants with large fringed, ruffled flowers. Hybrid vigor, free flowering and earliness.

- 1603—**La Paloma.** Pure white with yellow throat, well fringed flowers are large 100% grandiflora. Vigorous grower. 30 seeds 25c.

- 1610—**Bolero.** Giant well ruffled and fringed flowers of deep rose are 3½-4 in. across. Hybrid vigor gives it the vigor and free blooming habit needed for handsome beds or borders. 30 seeds 25c; 150 seeds \$1.00.
- 1611A—**Blended Mixture** of F Hybrids listed above. Pkt. 25c; 100 seeds 50c.

PETUNIA CULTURE

This is covered more fully on page 11 of "The Gardener's Handbook" sent free with your order. We treat all seeds of Petunias with Semesan to help prevent "damping off" which together with covering too deeply causes more failures than anything else. The seed may be sown indoors about 8 weeks before your usual outdoor planting time to give you blooming plants in early June, and because the seed are small should be sown in boxes and transplanted even when planting late.

BALCONY—Large Flowered Bedding

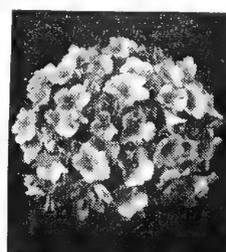

(Pendula) ha, or hhp. 1½ ft. This is the strongest growing of all Petunias, and succeeds under the most trying conditions.

Habit is trailing with long branches which are covered with bloom. Flowers are larger than the Hybrida Bedding type 2½-3 in. across. This type should be used for mass effect in beds, and the pendulous habit suits it ideally to hanging baskets or porch boxes.

- 1571—**Black Prince.** Rich deep velvety mahogany red with beautiful dark throat. Luxuriant.
- 1572—**Royal Blue.** Large, deep velvety blue.
- 1573—**Snow Storm.** One of the finest whites.
- 1574A—**Royal Rose.** Extra large flowers of clear, warm, rich rose.
- 1574—**Star of Calif.** Crimson, white star.
- 1575—**Complete Mixture.** Balcony Petunias.

MAMMOTH DAHLIA TYPE

Zinnias hha, 2-3 ft.

Dahlia Flowered Zinnias are most popular due to their great size (a well grown flower is often 6 in. across and 4 inches deep), and their fine form which resembles the Show Dahlias with broad petals, closely imbricated, seemingly piled one upon the other.

- 2166—**Buttercup**. New bright yellow.
- 2167—***Canary Bird**. A delicate shade of primrose, very large and holds its color well.
- 2170—***Crimson Monarch**. Largest and best red, flowers often 8 in. across; freely borne.
- 2171—**Dream**. A beautiful shade of soft lavender-blue, turning to purple as the flower ages.
- 2172—**Eldorado**. Charming rose on salmon.
- 2173—***Exquisite**. A most pleasing shade of Tyrian rose, deepening towards the center; huge.
- 2175—***Golden State**. Yellow in the bud, turning to vivid orange when in full bloom.
- 2176—**Illumination**. Brilliant deep rose.
- 2177—**Luminosa**. Bright deep pink suffused salmon.
- 2178—**Meteor**. Rich glowing red, suggesting the deep toned shade of velvet; excellent; lovely.
- 2179—**Old Rose**. A distinct color.
- 2180—**Oriole**. Immense orange and gold.
- 2181—***Polar Bear**. Immense, pure white, the best white yet found in Zinnias, true Dahlia form.
- 2182—***Purple Prince**. Rich deep purple.
- 2183—**Royal Purple**. (A.A.) Truly kingly in its rich, deep robe of purple. Uniform 3 ft. plants, large fully double flowers.

Are Sweet Peas Hard to Grow in Your Climate?—Here's The Answer.

NEW HEAT RESISTANT SWEET PEAS

CUTHBERTSON'S STRAIN Flowers in Hot Weather

Not only do they continue blooming long after hot weather has come and other sweet peas have died, but they begin blooming two weeks ahead of the Standard Spencers. The flowers are of the true Spencer Orchid Flowering type with long stems and wavy petals. Large and deliciously fragrant, they are produced in great quantity on plants of exceptional vigor. The colors are bright and clear. If you grow only one strain of Sweet Peas this is the most practical.

2003—Carol, Clear Pink; 2004—Coline, Scarlet; 2005—Janet, Pure White; 2006—

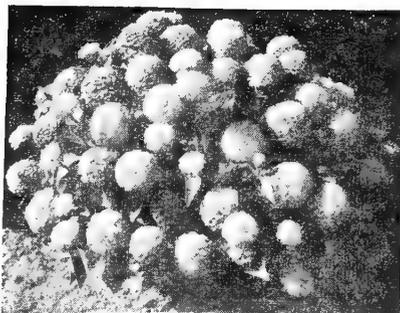

Frank G, Lavender; 2007—Tommy, Mid Blue; 1992—William, White with Pink picoteed edge, large very fragrant. Pkt. 10c; 25c; 1 oz. 85c.

2002—CUTHBERTSON'S HEAT RESISTANT SPRING FLOWERING BLEND MIXTURE.

A balanced blend containing the above varieties and all other named varieties in this class to give a most complete color range. Pkt. 10c; Large Pkt. 25c; 1/2 oz. 45c; oz. 75c; 1/4 lb. \$2.00.

2000—That New Spring Flowering

ZINNIA PEPPERMINT STICK MIXED

Our 1950 introduction. Color picture cover 1.

2227A—Peppermint Stick Mixed

A greatly improved mixture which includes Old Glory which is white with rose red striations. The Clown, yellow with reddish orange striations and several additional colors including red and yellow, pink and white, and purple and white. Flowers 2 1/2-3 in. across are freely borne all season until frost from a very early beginning. Plants grow 2 1/4 ft. tall are symmetrical and long stemmed. This will indeed be the brightest, most admired, distinctive flower in your garden. Available in mixture only which comes about 70% true striped. Pkt. 25c; 1/16 oz. 50c; 1/8 oz. \$1.00.

ZINNIAS are of easiest culture. For an extra early start, seeds may be sown in flats and transplanted; however, they grow more sturdily if sown in the bed where they are to stand after all danger of frost has passed. When plants are a few inches high, keep well cultivated and give thorough soaking every two weeks.

CUTHBERTSON'S Heat Resistant Sweet Peas

"Wish to report phenomenal success with sweet peas from your seed last year. In spite of the drought, we had brilliant blooms from June till shortly before Christmas. Had always found sweet peas hard to grow but these reached a height of 6 ft., bloomed continuously."

Mrs. B. S. B.; N. J.

"Always Dependable"

ANNUALS and PERENNIALS

Blooming the First Season

ANNUAL FLOWERS are those which grow, bloom, seed and die in one season. There are attractive annuals for every purpose. Some are fine for cutting, others for beds or borders, rock plants and climbers. We have listed in Part 1 the finest of all Annuals, and the perennials which may be treated as annuals in that they will bloom the first season from seed.

HARDY FLOWERS are those which may be sown in early spring as soon as the ground may be worked, or in fall to come up with the first breath of spring for earlier blooms. Hardy perennials and biennials may be planted in July or August and transplanted to permanent location about 1 month before frost where they live over with the protection of a mulch to give bloom in the spring. We think it best to sow perennials and biennials in the spring so that they can become better established before winter.

HALF HARDY FLOWERS listed with the symbol hh may be started early indoors for early bloom, or they may be planted outside when danger of frost is over. Half Hardy perennials need winter protection in the Northern states.

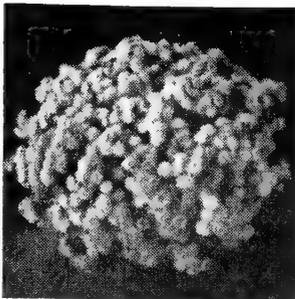

KEY TO SYMBOLS

Ft. or In. denote the height of the plant in feet or inches.	C—Especially valuable for cutting.

BALSAM Camellia Flowered

EASY TO GROW BALSAM

Touch-Me-Not or Lady Slipper

Among the most popular, beautiful and showy of the easy growing annuals are the "Touch-me-nots" coming in a great many colors, some pleasingly variegated. The flowers are large and as double as roses, waxy in texture, admirable in beds and borders, thriving in shade in any rich soil, and doing well in pots or beds. Started in autumn, they bloom in the window in winter.

300—BALSAM CAMELLIA FLOWERED, 2 ft. This is perhaps the finest Balsam in cultivation. It is known as Camellia-flowered because its flowers are like Camellias in general form and appearance. Plants grow 2 ft. high, branching symmetrically, and become little trees covered with elegant bloom. Large double waxy flowers. Splendid Mixture. Pkt. 10c; 25c; ¼ oz. 40c; ½ oz. 70c.

298—BALSAM NEW FLOWERING BUSH Dwarf Mixed, 1 ft. These bear their flowers on spikes above the foliage. They are desirable for beds and are also showy as pot plants. The flowers are fully double. ("Splendid mixture of colors.") Pkt. 10c; 25c; ¼ oz. 40c; ½ oz. 70c.

296—Torch. Bright red rose. Double Bush Type.
301—ROSE FLOWERED Mixture. Large, full double rose-like flowers borne in profusion on a strong growing bushy plant.

297—BALSAM. All types mixed.

The flowers are very large, fragrant, of the most varied and exquisite colors and variegations, and borne on long spikes. They bloom continuously during summer and autumn and are largely used for summer beds and borders, as well as for growing in pots for winter-blooming. As cut-flowers they are fashionable, and last well in vases. The plants are so readily started from seeds, bloom so early the first season and are so easily grown under almost any condition that they merit a high place in every selection of choice annual flowers. Our mixtures are especially prepared and will please you.

PARK'S PERENNIAL FLOWER SEEDS

FOR PERMANENCE AND CHARM

These are valuable subjects of the flower garden, as most of them are not only showy and beautiful when in bloom, but will do service year after year for a long period, enduring cold, excessive rain and drought, regardless of neglect and improper attention. They are easily grown from seeds. Thorough preparation of bed and good care, will award you with everlasting beauty.

Directions for making outdoor beds and sowing seeds are sent with every order.
Hp. HARDY PERENNIALS are hardy plants which will live and bloom every year for a long period. Plants grow to the flowering stage each year and die down again to the roots which remain alive but dormant until the next season. They are very valuable for borders and cut flowers, and once established require less care than the annuals.
Hb—HARDY BIENNIALS are those which bloom the second year from seed, then die. For a continuous display of this type, seed must be sown every year.

Hardy Aster

The varieties listed in Part IV are all hardy perennials or biennials, and may be sown in spring or midsummer. We recommend sowing perennial seeds in the Spring. Seeds germinate better in the cool weather than in the heat of mid-summer, and the longer growing period produces larger plants which winter over easily. THE HARDY PERENNIALS AND BIENNIALS LISTED IN THIS PART will bloom the second year from seed.

PRIMROSE CULTURAL NOTES

Sow in pots or pans as early in the year as possible, water, cover with glass and place outdoors where the soil will be frozen. When milder weather sets in bring into gentle warmth and seeds will germinate freely. Freeze seeds in ice cubes for similar effect. Allow plenty of time—seeds are often tardy. Primulas need partial shade, rich, porous soil, and a mulch of pine needles or salt hay to keep roots cool—this seems the answer to growing them in warm climates. They like the east side of a hill, shelter from wind, good drainage.

Primula Veris Collossea

TO CONTROL "DAMPING OFF"

"Damping Off" is a microscopic fungus growth which attacks the baby plants just as they emerge from the ground or while they are still small, and is the reason for many failures which are blamed on the seed, especially where very small seeds are concerned. It may be overcome by treating the seed (We do this for you as an extra "Park Service"), and sterilizing the soil. (Bake in the oven or pour boiling water thru it 24 hrs. prior to planting.)

Where sterilizing is impractical, as with an outdoor bed or cold frame, spray the soil, just as the seedlings appear, with Semesan solution (1-3 oz. to gallon of water). We offer **SEMESAN** in 1-3 oz. Pkts. for **20c.** This is enough to spray 40 square feet of bed.

1431A—**OLEANDER (Nerium)** Here is a lovely outdoor shrub of the south for your northern conservatory. Flowers in showy clusters, red to white, dble and sgle.

1429A—**NAEGELIA Hybrida Compacta Mixed, (Smithsonia)** A close Achimene relative, requiring similar culture (See pg. 48) Flowers red, yellow or painted in terminal racemes. Leaves beautifully marked. **Pkt. 25c.**

1032—**Complete Mixture of Impatiens.**

Flowers are the sweetest things that God ever made and forgot to put a soul into.

Geo. W. Park Seed Co. Clinton, Conn. Spring 1950
I wish to compliment you on your excellent seeds; wonderful results, and your extreme fairness—a fairness I have seldom encountered in other firms. I have and shall continue to recommend you highly. Louis Pontillo.

Dear Sirs: New York, N. Y.
We tried all seeds and found that yours gave us best results, even such things as African Violets, Gloxinias, Begonias, etc. Your "Gardener's Handbook" is worth its weight in gold. Mrs. R. Copit.

Three Late Arrivals too good to omit:
549A—**YELLOW CINERARIA Citronella.** Daintily lemon yellow when opening, light cream in full bloom. 1 ft. plants 2 in. flrs. **Pkt. 25c.**

1744—Primula Obconica Gigantea. Pkt. 10c.

PRIMULA OBCONICA

P. Obconica Gigantea, New Giant Flowered Primula. The engraving gives some idea as to the size of these new free blooming giants. Our mixture contains the most varied and brilliant colors.

1741A—Wyaston Wonder Gigantea Crimson has flowers almost twice as large as any other Obconica variety Bright crimson red. Pkt. 25c.
1740—Pure White. 1742—Bright Blue.
1741—Deep Carmine Red. 1743—Deep rose.
1744—Gigantea Splendid Complete Mixture.

1707—HYBRID PRIMULA Kewensis. 15 in. 3/4 in. flowers in large umbels are bright yellow and deliciously fragrant. The yellow coloring is very rare in Window Garden Primulas. Pkt. 25c.

Streptocarpus Hybrids, Cape Primrose

1955—Giant Streptocarpus Hybrids

Here is a new race of Giant Streptocarpus Hybrids that will be eye-openers to many who grow fine window plants. For thirty years the European plant breeders have been hybridizing and selecting, using the finest known species and varieties; and these earnest efforts have resulted in a magnificent strain of Hybrids, the flowers of which are surpassingly beautiful in size, form, rich and varied colors, and free and continuous blooming. As easily raised from seed as Gloxinias. The flowers are trumpet shaped, about 2 in. long, very graceful, and wonderfully varied in color, ranging from white to rich blue and crimson, the throat and lower segments often splashed with white or purple. If you grow Gloxinias, don't fail to get this.

2014—THEA Sinensis, Tea Plant. hhp. Beautiful, ornamental both in foliage and flower. Treated leaves become tea of commerce. Choice plant.

Use Quassia Chip Spray to protect your plants from insect pests. 1/4 lb. Quassia Chips 35c.

1447—OXALIS (Little Buttercup). Mixed.
1448—Purple Bed. 4 in. Purple lvs. Yellow flrs.

1689—POINSETTIA Pulcherrima. The beautiful Christmas flower. Started in spring the plants will bloom for Christmas. Seeds for this have not been available since before the war. We have been fortunate in obtaining 1000 seeds. First come, first served. 5 seeds 25c; 25 seeds \$1.00.

1687—PLUMBAGO Capensis. Charming climber with light blue flowers. Extra choice.

1687A—Plumbago Capensis Alba. White. Pkt. 25c.

1922—STEVIA Serrata (Piqueria). 1 ft. hhp. For Airy white flowers borne profusely in panicles.

1887—SMILAX (Myrsiphyllum). Handsome shining foliage, pretty pot trellis, fine to cut.

1954—STRELITZIA REGINA (Bird of Paradise). A S. African herb of the Banana Family. 3 ft. hhp. Long leaves and yellow flowers with dark blue tongues and purple boat like bracts. Very odd and distinctly beautiful. Directions with every packet. Will endure some neglect but unless well cared for will fail to bloom. Worth ALL the trouble. 1 seed 20c; 3 seeds 50c; 7 seeds \$1.00.

Strelitzia Regina Bird of Paradise

1688—POINSIANA Gillesii (Also sometimes called Bird of Paradise). Flowers light yellow with bright red stamens. 3 seeds 25c; 15 seeds \$1.00.

PARK'S FINEST PRIMROSES

PRIMULA. hhp. These are hardly equalled by any other flower for winter blooming. The plants are easily raised from seeds, begin to bloom in six to eight months, bloom in winter and spring.

CHINESE GIANT FRINGED

Anyone can grow these successfully from seeds, and a window full of the blooming plants is an object that attracts the attention and admiration of all. Finest strains in rich and beautiful colors. 1731—Scarlet. 1728—Crimson. 1729—Dark Blue. 1734—Choice Mixed of all colors. 1733—Gigantea Mixed. Extra large flrs. Pkt. 25c. 1730—Park's Double Flowered Mixed. Pkt. 25c. 1745—Chinese Star Sorts. These are more free-blooming than the Giant Fringed, embrace as many colors, and are more easily cared for. Succeed under adverse conditions and are as attractive as the giant Primrose, and more satisfactory.

PRIMULA NOTES: Sow seed from January to May for fall and winter flowers. Use light sandy soil, and barely cover the seed. Close attention must be paid to moisture. Keep the soil moist, not wet. Remove glass and paper covering as soon as germination begins. Darkness essential to germination.

BUTTERFLY FLOWER

SCHIZANTHUS, Butterfly Flower. These are splendid annuals, the plants growing from one to two feet high, branching freely, and are almost smothered with delicate orchid-like bloom. The markings are white, rose, gold, crimson, violet. 1876—Dr. Badger's Hybrids. hha, 1 ft. This is the finest strain of Schizanthus. Mixed colors. 1886—Monarch Hybrids. A distinctly dwarf strain with large flowers. Complete color range. New and the finest for use as a pot plant. Pkt. 25c. 1880—Complete Special Mixture of Schizanthus.

PASSION VINE (Passiflora). hhp. Magnificent flowers of unusual structure followed by egg-shaped fruits. Tendril climbing vines.

1545—Coerulea. Snowy blue flowers.
1546—Edulis. Blue and white flowers, showy, delicious purple, egg-shaped edible fruits.
1559—Incarната—Two inch flowers, white with pink crown. Fruit yellow, attractive and edible.
1547—Mixture of Passiflora.

ORNAMENTAL PEPPERS

SOLANUM. 1895—Capsicastrum Nanum, Jerusalem Cherry. hhp. 1 ft. Bright red cherry-like fruits. 1896—Cleveland Cherry. Improved Jerusalem.

1895A—Craig's Ornamental. Dwarf compact, wide, low plants with small up-pointed top-shaped fruits. White, bright orange and scarlet in sequence. Bright, gay, everbearing.

1903A—Scarlet Love Apple. (Integrifolium) Brightest scarlet 2 in. fruit is freely borne.

1896A—Patersoni. Spreading, compact habit, scarlet-red cherry-like, large fruits.

1897A—Gold Ball. Like above but yellow.

1898A—Muticum. Violet flrs, heart-shaped fr.

1899A—Seafortianum. Lovely climber with star shaped blue flrs. Tiny scarlet fruit.

1900A—Tricolor. Flurs white then intense yellow finally bright scarlet.

1904A—Marginatum. Lvs. 8 in. long are lobed and hairy. Flrs. white lined blue. Fruit large yellow globes.

1904—True Jerusalem Cherry (Pseudo capsicum nanum). Scarlet or yellow berries are persistent.

1900—Mixed. Ornamental Solanum.

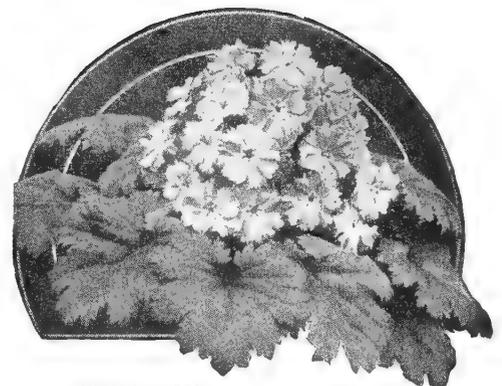

AFRICAN VIOLETS FROM SEEDS

Sure am pleased with my African Violets from your seed. They began to bloom in Aug. from Feb. planted seed. I only lost 2 out of 87 plants. Gloxinias also blooming. Mrs. M. C. Thomas.

Saintpaulia Ionantha, African Violet

1794—SAINTPAULIA Ionantha Grandiflora Mrs. Odom's Magnificent Strain (African Violet) hhp. 6 in. We are delighted to be able to offer seeds of African Violets again, and from one of the finest collections in America. All the colors, white, pink, blue, red, single and double are represented. Mrs. H. W. Odom is one of the foremost authorities on African Violets. The flowers must be carefully hand pollinated in order to produce seed. We are the sole distributor for Mrs. Odom's magnificent strain. Pkt. (50 seeds) 25c; 250 seeds \$1.00. The seeds are very fine. Open pkt. over white paper and look closely or they might be lost. We cannot replace these very expensive, scarce seeds. 2136—Park's Select Window Garden Mixture. Many best kinds.

Everblooming Chinese Giant Fringed Primrose

BEAUTIFUL PRIMULA MALACOIDES Blossoms in 4 months from seeds.

1738—PRIMULA Malacoides Sweetheart. Sweetheart adds a distinct bi-color to the group. The blooms are bright salmon pink, bordered with a wide band of white, softly flushed flesh pink. In the center is a distinct touch of gold. Pkt. 25c. 1735—Double Mixed. A beautiful new strain, very unusual in this family. Well formed, double flowers are borne on heavy wiry stems. Pkt. 25c. 1739—Complete Mixture Primula malacoides.

PARK'S MAGNIFICENT GLADIOLUS

Cut Flowers for your home from June until Frost

Perhaps there is not another summer flower more popular than the improved Gladiolus. In a bed the plants stand erect, bloom freely for many weeks, are showy and unequalled for cutting. Set the bulbs 5 in. deep and 6 in. apart; as hot weather approaches mulch with stable litter. Good garden soil, full sun, frequent cultivation around the base of the plant are the requisites for best results. Water copiously; as flower buds begin to form, apply

Our bulbs are clean and healthy, high crown corms, guaranteed to bloom and give you pleasure and satisfaction. All are first quality No. 1 Bulbs 1½ inches in diameter, treated against thrip and disease. Where 1 corm is not priced allow ½ the 3 rate; 6 at doz. rate; 25 at 100 rate.

liquid manure for exhibition spikes.

Planting may begin as soon as the soil warms in early spring, and the last planting should be made about 12 weeks before the first killing frost. This is July 15 in the latitude of New York, and later in the South. By planting at two week intervals, bloom may be had from late June until frost.

NOVELTIES AND OUTSTANDING GLADIOLUS

The finest Gladiolus of recent introduction. We have selected what we consider to be the leading Gladiolus varieties for the garden for cutting, for exhibition purposes. All are good growers, and prize winners.

B199—Abigail.

A glorified Minuet, opens 7 or more 4½ inch florets on tall straight spikes. A good propagator. 35c ea.; 3 for 90c; 12 for \$3.15.

B235—Abu Hassan. (80 days).

A novelty from Holland, with great merit, much better than Pelegrina. Rich deep violet blue. The finest dark blue yet. 20c ea.; 3 for 40c; 12 for \$1.50; 100 for \$10.75.

B200—Antietam.

(Midseason) A beautiful deep glistening red with velvet appearance. Shows eight good facing, closely attached 4½ inch florets with good substance on a 20 bud. 25 in. flower head. Very stiff, steel-like spike 60 and more inches tall. \$1.00 ea.; 3 for \$2.50.

B269—Burma.

(Midseason) Large, heavily ruffled, very deep rose with beautiful velvety darker blotch. Nothing else like it! A show winner everywhere. 20c ea.; 3 for 40c; 12 for \$1.50; 100 for \$10.00.

B232—Golden Arrow.

(Midseason) A true light yellow. Attains a height of 60 inches and is always straight. Florets are 5½ inches across, well placed. One of the finest yellows. 20c ea.; 3 for 50c; 12 for \$1.75.

B271—Lavender Prince.

(Midseason) Distinct and unusual shade of lavender mauve. Tallest growing Lavender we know (5 ft.). Opens 6 well placed blooms. 25c ea.; 3 for 60c; 12 for \$2.25.

B238—Market Queen

The tallest Gladiolus to date. 40 inches of its 5 foot stem are covered with 4 in. florets of beautiful orange salmon. 8 to 10 open at one time. 25c ea.; 3 for 50c; 12 for \$1.75.

B231—Moonstone.

Sport of Picardy. Good grower and propagator. A beautiful Glad. The name is a natural. Delicate lavender. 3 for 35c; 12 for \$1.40; 100 for \$9.80.

B272—Miss Wisconsin.

(Late Midseason) A shade of rose not common in Glads, but one badly needed. Opens 6-8 on an 18 bud spike. 30c each; 3 for 60c; 12 for \$2.25.

B273—Silver Star.

A large formal pure white with bright purple shading to lavender blotch, floret size 5-6 inches with slightly ruffled edge. Heavy stiff spike with 16-18 buds, flower head 25 inches, grows 55 inches high and blooms in 90 days. An outstanding show winner, a striking beauty. 30c ea.; 3 for 60c; 12 for \$2.25.

B274—Snowsheen.

The white that is different. Nicely ruffled, pure white without any other trace of color. Stigma and stamens slightly cream. Tops for both exhibition and commercial use. 25c ea.; 3 for 50c; 12 for \$1.75.

B254—Spotlight.

One of the finest Glads grown. Deep yellow with small red mark deep in the throat. The individual florets are of giant size, 5 in. across and 7 will open at one time. This is the largest yellow. 20c each; 3 for 40c; 12 for \$1.50.

B276—Silver Gull.

So different that no color classification fits this new beauty from Holland. Basically it is white with an orchid undertone overlaid with a shining silver sheen. Don't miss this outstanding Gladiolus. 25c ea.; 3 for 60c; 12 for \$1.75.

B291—Wedgewood.

(Early) Here is a lavender that is just about the ultimate in beauty. Opens 5 waxy ruffled blooms of a live blue lavender shade with cream throat. 35c each; 3 for 85c; 12 for \$3.00.

One of each above unlabelled. 14 Glads \$3.95.

INDEX, GERMINATION and CULTURE GUIDE

Jiffy Index

When sowing seeds it is always best to divide the packets and sow at different times. Note the time and give good care until the plants have had time to appear. The following table gives the time normally required for germination of each variety of seeds. This time may vary as much as 25% either way. Do not condemn seeds until you have given them at least two or three trials. Those marked z or having the dagger (†) beside them may lie dormant for a year or more. The other tables are self explanatory, and while they are somewhat complicated, do give a great deal of information about each of the hundreds of species listed.

Blackberry Lily

TUBEROUS BEGONIAS

No summer blooming pot plant surpasses these Giant Flowered Begonias. Plants grow and bloom freely in any partially shaded place, huge, waxy, delicate-textured flowers. For house plants or shady summer beds. Try a few.

All Large Bulbs—1½ in. to 2 in. in diam.

THE BEST BEGONIAS IN THE WORLD

Grown especially for us by Mr. W. A. Brown a noted Begonia hybridizer from stock developed over a period of 10 years of constant breeding and selection. These bulbs will produce larger flowers (up to 10-12 in. when properly grown) more uniform, more fully double than the Belgian strain offered below. Outstanding in this strain is the brilliance and life of every color - a glowing sheen which clothes them in shining beauty. If you want the best Begonias, in all the world, don't miss these. We offer:

BROWN'S BEST CAMELLIA FLOWERED BEGONIAS

B341—White. B342—Pink. B344—Scarlet. B345—Yellow. B346—Orange. B346A—Mixed. B347—Marmorata. Mottled rose and white. B341A—Picotee. Petals edged in different shades of color. A pastel mixture. Any above: 50c ea.; 3 for \$1.35; 12 for \$5.

TWO EXQUISITE NAMED KINDS

B343A—Autumn Glow. Cristata type of apricot with contrasting tufts of deep copper. Flrs. often measure 10 in. across. 75c ea.; 3 for \$2.

B344A—Stars and Stripes. Brick red flowers speckled white are not large, but are borne in abundance. 75c ea.; 3 for \$2.

B343—DAFFODIL TYPE. A pink trumpet flr. reminiscent of King Alfred Daffodil. 60c ea.

B342A—HOLLYHOCK TYPE. Single mallow pink flrs. are produced on a main Hollyhock-like stalk. Blooming size tubers. 60c ea.

NEW MULTIFLORA TYPE

Especially recommended for outdoor group planting and borders, as well as for pots. Plants are compact and resist the sunrays better than other types. Each plant gives you a continuous array of flowers all summer in abundance. Bulbs are irregular in shape. Flowers are double, but smaller than others we list. Each bulb will produce 50 to 100 flowers during the season.

B340—MULTIFLORA MIXED. Red, salmon, yellow, bronze, pink in fine mixture. (Mixed colors only). 35c each; 3 for 95c; 12 for \$3.40.

CAMELLIA FLOWERED

Camellia Flowered Begonias are so named because they resemble closely the large 4-6 inch, perfect and fully double blooms of the Camellia. A single flower will often last a month or more, and the plants will bloom all summer.

30c each; 3 for 85c; 12 for \$3.15.

B330—White B333—Scarlet
B331—Rose B334—Salmon
B332—Yellow B335—Copper

094—BEGONIA COLLECTION. One of each Camellia Flowered above. 6 bulbs for \$1.55.

B336—CAMELLIA FLOWERED MIXED. From named varieties. 4 for \$1.00; 12 for \$2.75; 25 for \$5.00.

DOUBLE CARNATION FLOWERED

Giant fully double fluffy blooms with frilled petals resemble closely the Carnation flower.

B340A—MIXTURE. 35c ea.; 3 for 95c; 12 for \$3.40.

DOUBLE PENDULA or Hanging Basket

Large double flowers on gracefully hanging stems, for hanging baskets or porch boxes.

B337—MIXED. 35c each; 3 for 95c; 12 for \$3.40.

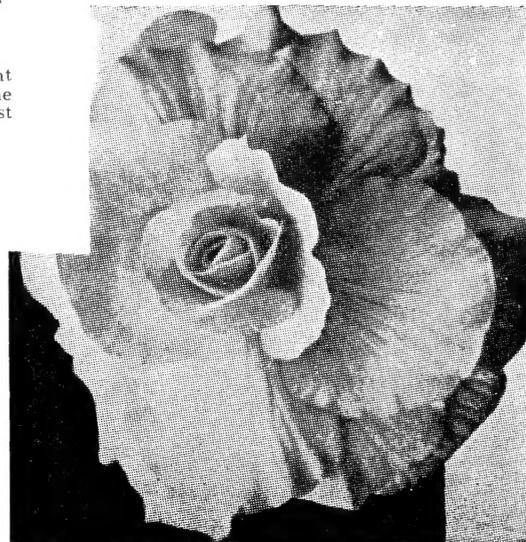

DOUBLE ROSEBUD

A beautiful double type which in shape is similar to a fresh cut rose bud.

B338—MIXED. 35c each; 3 for 95c; 12 for \$3.40.

095—ALL TYPES BEGONIA COLLECTION. 2 bulbs each of 6 types listed. 12 for \$3.35.

CULTURE: Same as Gloxinias.

Begonia, Double Camellia Flowered—30c each

Mixed Achimenes—3 for 45c; 12 for \$1.50.

"MAGIC FLOWER"

Found in Mexico and known in Botany as Achimene Grandiflora, it belongs to the Gesneraceae, and is a near relative of the Gloxina. The plants are spreading, grow 8-12 in. high, and develop the lovely flowers in graceful everblooming profusion. Achimene bulbs are very small by nature. Culture as for Gloxinias but bloom all summer.

B302—PURPLE KING. Rich deep purple blooms. This is the most easily grown and profuse blooming variety. 20c each; 3 for 45c; 12 for \$1.50.

B303—MEXICANA or Blue Beauty. Produces the largest flowers of any Achimene (2½ in. diam.). Flowers are deep sky blue with white throat. 25c each; 3 for 60c; 12 for \$1.65.

NEW AND RARE ACHIMENES

B309—ADELE DE LA HAUTE. Shell pink with carmine center. 30c ea.; 3 for 75c.

B305—LITTLE BEAUTY. Leaves of deep amber green provide a background which shows the pure rose flowers to striking advantage. Most beautiful. 35c each; 3 for 85c; 12 for \$2.95.

B304—PURITY. Large flowers of pure snow white without a mark to mar its purity. The leaves are light green. 40c each; 3 for \$1.00; 12 for \$3.50.

B301—CRIMSON GLORY. Dark velvety crimson with yellow center. 30c each; 3 for 75c.

B306—SCARLET CHARM (Pulchella). Flowers are smaller but of bright scarlet color and produced in great profusion. 35c each; 3 for 85c.

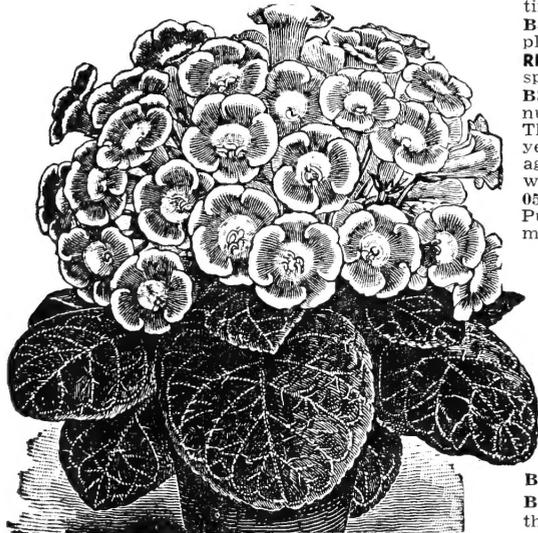

B311—THE GYPSY. Deep carmine with lovely dark foliage. 35c each; 3 for 85c. New.

B310—AMBROISE VARSHAFLET. Large flowers are white blushed lavender with contrasting marks and dots of deep orchid. 35c ea.; 3 for 85c.

B308—STORM CLOUD. An entirely new Hybrid type which might have come from a cross with Gloxinias. Gloxinia shaped flowers have wide open throats. The foliage is large, Gloxinia like and most beautiful. Color: stormy blue and white. 45c each; 3 for \$1.00. Supply limited.

B300—CARMINITA. Deep rosy carmine. Wide open throat is golden yellow spotted maroon. A Gloxinia flwd. Beauty. 40c. each.

092—ACHIMENE COLLECTION. One of each. 11 Bulbs for \$3.00. 093—3 of each \$7.50.

Gloxinias mixed 40c each; 3 for \$1.00.

GLOXINIA CULTURE. For a succession of bloom start bulbs every two weeks from January thru April. Pot with crown protruding, using equal parts of rich fibrous loam, sand, and leaf mold. A warm temperature (70 degrees) is required or bulbs will rot. Insure good drainage by placing gravel in bottom of the pot. Water sparingly until growth starts, then plenty of water should be given and care taken not to wet the leaves. An eastern exposure, well sheltered from strong wind and sun suits them. After blooming, withhold water to ripen the tubers, then store in sand for winter at 45 degrees.

White Calla—45c each

EXOTIC CALLAS

Easily grown from Seeds or Bulbs

What is more exciting than a well grown Calla with its perfect wax like flowers and beautiful foliage. They may be brought into bloom at almost any time in house plants, or bedded out during summer. Not hardy except Black Calla.

GIANT WHITE (Aethiopia). Velvety pure white. B356—BULBS. 1½-1¾ in. 45c each; 3 for \$1.15; 12 for \$3.85.

383—Seed. 3 seeds 10c; 10 seeds 25c.

YELLOW (Elliottiana) Bright golden yellow.

B352—BULBS. 2-2½ in. 40c ea.; 3 for \$1.10; doz. \$4.00.
